

There is finally a Christian station that plays alternative music for teens and other that enjoy the upbeat sounds that Airl plays. I listen to Airl on my way to work, everytime that I am in the car and get reception, it is on! Airl is encouraging and has a postive outlook on life. Listening to Airl lifts my spirits and makes me realize the reality of life and that God is wonderful and loves me even in times of hardship and when I am falling away. If Airl get taken away and replaced by another station, the effects could be drastic and the Airl listeners wouldn't have the encouraging and positive outlook everyday. Please keep Airl on the air!
